Sample abstract description placed here.

Applicant Statement: *

Please describe why you should be selected to attend Geo-CVD.

I'm an ideal candidate to advocate for the geosciences because my research focuses on both seismology and public policy. Research institutions across the United States are increasingly facing budget cuts and other challenges. Attending Geo-CVD will give me the opportunity to not just learn more about the legislative process, but also use my diverse experience to make a case for our science to policymakers.
